Vol. 22

Chinook, Alberta, Thursday, April 20th, 1939

NO

## OBITUARY

### Youngstown Highly Respected Pioneer Passes

Youngstown lost one of her oldest and most highly esteemed pioneers in the passing of Courtland Aggett, on Friday morning, April 7th.

Mr Aggett came to Youngstown from Ontario almost thirty years ago during which time he took an active part in every enterprise that pertained to the welfare of the community. He was president of the Youngstown Agricultural Society for many years and also served many years on the local school board. He was a loyal and faithful worker of the United Church of which he was a member and was Chairman of the time of his decease.

He was 83 years old and was remarkably active for a man of his years. He retired after family brayers about eleven o'clock Thursday night in his usual good health and quietly passed away in his sleep.

The funeral was held in Youngstown United Church Sunday afternoon, April 9th at 3:30 and was conducted by Rev. H. A. Whaley. The hymns sung — "I Need Thee Every Hour" and "What A Friend We Have In Jesus" were favorites of the deceased. The Scripture selections were: Psalms 23 and 121 and selections from John's gospel chapter 14.

Memories cherished most are those of his attitude to life and to God. All else is as chaff which the wind driveth away.

There were many beautiful floral tributes. Interment was made in the Youngstown cemetery.

Mr Aggett is survived by his wife, one son, Courtland, of DeWinton, Alberta, and two daughters, Margaret of Toronto, Ontario, and Mrs. Beatrice Bennett, of Boston, Mass., also one brother and two sisters in Ontario.

A large circle of friends extend their most sincere sympathy to the bereaved wife and family.

Mr. E. C. Pfeiffer is spending a few days in Calgary this week.

Mrs. Clifford Peterson and little daughter returned from Drumheller where she has been visiting with relatives.

Mrs. Targett and son Brian who have been visiting with relatives in Calgary, returned Sunday.

Mrs. Mortimer who spent a month in Edmonton visiting at the home of her sister, returned Sunday.

Miss Kathleen Proudfoot is practicing teaching at Cereal school and Jas. Proudfoot is teaching at Keystone.

Jas. Wilson is practicing teaching at Lanfane school.

## THE WEEK IN EDMONTON

Edmonton, April 20th—Departure of the M. L. A's from the Legislative Buildings following prorogation has left a quiet atmosphere that contrasts greatly with the noise and bustle of sessional days. Yet beneath the apparent calm there is activity—the silent and efficient activity of the administrative services as they swing once more into the business of a new working year.

With the passage of the new lands act, the era of homesteading appears to have ended in Alberta. No more will land hungry settlers stake their classic bet of ten dollars to a duarier section that they can "make a go of it" on virgin land. The new act, which provides for a long term leasing proposition with an option of purchase, may rightfully be set down as Alberta's charter of coming of age. It would seem that a new phase of our country's building was reached at the end of March.

There were no frantic last minute rushes to take up homesteads. Paradoxically, the "land office business". Actually, during the last days of the homestead era, only 68 persons filed on new quarters up to March 25st. A number of options granted before that date may be taken up within a period of 90 days. Of the 68 homestead filings, 46 were by women.

Edmonton Spring Show, which has attracted good attendance at the Arena this week, brought forth the usual fine exhibits of livestock and horseflesh which Alberta breeders produce. Among the awards taken by the Provincial Department of Agriculture were the championship in Shorthorn bull section championship and reserve championship in Ayrshires.

Indicative of the desire for building improvement among home owners in Alberta is the announcement of Hon. Chas. Dunning, federal minister of finance, that Alberta stands second in the amount of lendings approved by the H. I. P. Loans approved from November 1, 1936, when the scheme became effective, to March 31 of this year numbered 64,746, valued at \$25,856, 602.

With the approach of spring work on Alberta farms, the need for vaccination of all horses against the expected onslaught of sleeping sickness is being stressed by the Department of agriculture officials. Early this week 80,000 doses of chick vaccine had been distributed, and ample further supplies are assured.

## Cooley Bros. Garage Making Alterations

The spring cleaning fever has taken a strong hold on the owners and staff of the Cooley Bros. Garage, with noticeable and very gratifying results. The inside of the garage has been cleaned, painted, and rearranged with the object of improving the appearance and also of providing more efficient service. The outside appearance has been greatly improved by the addition of steel siding above the driveway and show windows, to replace the original stucco finish which had fallen off in many places. When this is painted a lighter color, the result promises to be well worth the effort, and will conform with the modern and up to date policy of the garage.

The business people of Chinook must be taking renewed heart as, recently the Bayley Butcher Shop was decorated throughout, and also made some alterations.

The Mah Bros. Restaurant is being spring house cleaned, painted and decorated throughout.

With a horse population of approximately 650,000 head in Alberta, it is apparent that protection of this great store of real wealth will demand all the care that owners can give if a serious epidemic is to be avoided.

Alberta's enlarged school unit system will prove the greatest contribution ever made to education in this province. Premier Aberhart told 600 teachers in Edmonton last week. He spoke at a convention banquet held in connection with the 22nd annual meet of the A. T. A. Mr. Aberhart said that his predecessor in office, Mr. Perrin Baker, deserved full credit for the pioneering work done to introduce the larger Unit.

## Auxiliaries To Safety

Provided the cost of installation is not too great to render prohibitive the use of them, the sufficient number to be of real value, the newly announced mirrors enabling motorists climbing up an incline to see the cars coming up on the other side before the crest is reached, should be effective as a life and limb saver on the highways.

The result of six years experimentation, the new device consists of a glass 13 feet wide and four feet high which is mounted on a bridge straddling the crest of the hill similar to those used to carry railway signals. It is made of 17 triangular bars of glass laid parallel across the face, according to a report presented to the Greater New York Safety Council. Each bar is a prism which bends the light rays coming up one side of the hill to go downward on the other side and reflects everything about half size. Moreover, it is said to be effective at night.

To what extent the general use of such a device on the highways would prevent accidents occurring on hills is difficult to say until it has been put to practical use for a period of time. Suffice it to say, however, that lack of vision over hilltops has been responsible for many serious accidents in the past, resulting in many deaths and severe injuries, to say nothing of property loss represented by wrecked automobiles and trucks.

Such accidents are sometimes caused by a driver persisting in driving up a hill at high speed on the wrong side of the road, or of one driver passing another near the top of a hill while a third car travelling in the opposite direction is coming up on the other side, leaving insufficient space for the three cars to pass one another abreast.

### Worth A Trial

On the face of it, the invention appears to have sufficient merit to make a demonstration of its use worth while and any money which the governments might spend in installing one or two on the principal highways in each of the provinces would probably be money well expended. If two or three trial mirrors of this type proved their worth, it would not be long before the general motoring public would demand installation of them on all of the dangerous hills and doubtless would be prepared to defray the cost of such a convenience.

The steep hill on the highway is, of course, only one of the hazards of motor travel, but it is one of the most prolific sources of danger and as a death trap ranks with the unprotected level crossing. "Never pass another car on a hill" is one of the slogans of safety first organizations but, unfortunately, it is a piece of advice that too often is honored in the breach.

With the summer months approaching and the season of maximum use of the highways commencing, the present is an opportune time to take stock of the dangers of the open road and to reflect upon the measures that can and should be taken, if not to eliminate entirely, to minimize at least the tremendous annual toll of life, limb and property exacted by accidents on the road.

This is largely an individual problem since statistics, as far as the necessary information is available, demonstrate that the human element is responsible for by far the greater percentage of the risks and the losses. In other words, a very substantial proportion of accidents is due to criminal negligence, or recklessness, or plain carelessness and lack of proper precaution rather than mechanical defects.

### Make An Inventory

With the human element—the vagaries or eccentricities, misjudgments or the mere aberrations of the driver, responsible for the great majority of accidents on the highway, it is essential that every motorist take time off occasionally to conduct a self-examination of his own habits and mental reflexes at the wheel.

It is a good precautionary measure for a driver to list potential causes of accidents and ask himself what he would do were he suddenly faced with situations likely to cause disaster to the unprepared. It is good practice for the motorist to make a similar list of his own bad or dangerous habits on the highway and draw himself into decisions to avoid them.

"I did not see it," is one of the most frequent excuses heard at the post mortem of highway accident, betokening lack of powers of observation or failure to exercise them.

Every driver of an automobile or truck should cultivate the practice of watching for the little things which may signal danger ahead. The sudden, disturbed flight of a bird sitting on the road opposite an intersection 75 or 100 yards ahead is likely to be a warning that another vehicle is approaching at right angles.

The keenly observant driver eventually develops an intuition of pending danger which some day may stand him in good stead and save his life and the lives of others. The careless, non-observant driver is over a menace to himself and to others.

Mechanical devices such as those referred to at the outset have their value but their value is much enhanced if the driver does not permit them to relax his vigilance or to let up in the practice of sensible conduct.

### New Type Cafe

Makes Specialty Of Milk, Cheese Sandwiches And Buttered Toast

Many Milwaukeeans, says Country Home, now give parties out in the country at the "Milk Jug", where cold, creamy milk is on tap, and tasty cheese sandwiches and thickly buttered toast can be ordered to go with it. Cows are milked in a sanitary parlor right before their eyes, and cheese and butter are made while they wait. Now nearing the end of its second year, this picturesque way-side inn is going strong, and sales run as high as \$300 a day.

An inventor has combined wood and a plastic in a new building material for interior finishing that has a permanent, moisture-proof finish that can be cut with hand tools.

European geography has become almost as fluid as the ocean.

### PATENTS

AN OFFER TO EVERY INVENTOR. List of inventions and information sent free. THE RAMSAY COMPANY, Registered Patent Attorneys, 275 Bank Street, Ottawa, Canada.

### Florida Residents See Snow

Shipment Taken To St. Petersburg Was Shown In Store Window

That white stuff, parents told wide-eyed youngsters staring in a downtown store window in St. Petersburg, Florida, was snow—the stuff you see pictured on Christmas cards. And that's about the only place many natives of this sunshine resort had seen it before an air express shipment arrived from Cannon Mountain, New Hampshire, and was placed on public display. The snow, packed in cartons protected by dry ice, was brought by the New Hampshire Tourist Society for use at a party.

### Ship For Sea Scouts

Henry Ford has bought the largest sailing vessel on the Great Lakes, the J. T. Wing, a 140-foot gaff-rigged schooner, and will use the boat as a training ship for young men interested in sailing. The Wing is being overhauled and will be sailed this summer, probably by sea scouts.

A gull can soar as slow as 12 miles per hour.

### Imports Some Wool

Australia Does Not Produce Coarse Grades In Any Quantity

Australia has for many years led the world by a wide margin in wool production. While the population of the Commonwealth today is 106,818 short of the seven million mark, there are 114,256,410 sheep, or 16½ to every person. Last year these sheep grew more than 1,000,000,000 pounds of wool. This is one point in which Australia leads Canada. The senior dominion is ahead in production of wheat, cattle, lumber and minerals, but her 11,000,000 people own only 3,415,000 sheep, and the annual wool production is only 18,915,000 pounds.

During February in London sales of Australian wool totalled 1,920,219 bales, an increase over the corresponding month of 1938. A fact recently brought to light is that Australia, despite its huge production, has to import a small amount of wool from overseas. Eighty per cent. of the country's flocks are Merino sheep, and the Commonwealth's wool production for the wool market relates only to medium, fine and superfine wools. She produces very little of the coarser, crossbred wools. When manufacturers of coarse woolen goods require these coarser grades for blending with the Australian wools they have to import them.

Australia claims to be the wealthiest of the British Dominions. In the Commonwealth there are 866,190 registered motor vehicles, 639,542 telephones, and 1,068,709 radio licenses, all of which she is behind Canada in the gross, although not so much on a per capita basis. Her savings bank deposits at latest reports were \$1,210,000,000, or about \$175 per capita, compared with \$1,655,800,000 for Canada which works out at about \$150 per head.

### SELECTED RECIPES

#### PINEAPPLE BANANA SHORTCAKE

6 Shredded Wheat Biscuits  
1 No. 2 can crushed pineapple  
1 teaspoon soft butter  
1 cup thinly sliced bananas  
1 tablespoon lemon juice  
½ teaspoon vanilla extract  
3 teaspoons powdered sugar  
1 cup heavy cream, whipped  
½ cup light cream  
Drain the pineapple and reserve the juice. Split the biscuits, spread each half with 1 teaspoon of butter and sprinkle with 1 teaspoon of the apple juice. Heat in a moderate oven of 375 degrees F. 10 minutes. Meanwhile combine the drained pineapple, the bananas, and the lemon juice. Add the vanilla and two teaspoons of the sugar to the whipped cream and combine with the pineapple mixture. Fill the split hot biscuits with half this mixture, placing the top halves hollow side up; fill with the remaining pineapple mixture. Serve with the light cream mixed with ½ cup of the drained pineapple juice and sweetened with one teaspoon powdered sugar. Serves six.

Fruit Sherbet.—Use berries, peaches, crushed pineapple, or any thick, cooked fruit puree.

#### BRIDE'S FIRST CAKE

(One Egg)

2 cups sifted Swans Down Cake Flour  
2 teaspoons Calumet Baking Powder  
¼ teaspoon salt  
4 teaspoons butter or other shortening  
1 cup sugar  
1 egg, unbeaten  
¾ cup milk  
1 teaspoon vanilla

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together well. Add egg and beat very thoroughly. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla. Bake in two greased 8-inch layer pans in moderate oven (375 degrees F.) 25 minutes, or until done. Spread Quick Pudge Frosting between layers and over cake. Sprinkle with Baker's Coconut, if desired.

### Study Of The Weather

Complete Co-operation Between United States And Canada

International weather reports! Weather is a world problem and recognizes no artificial boundaries. This was known to meteorologists a long time ago. To further the study of the weather and the forecasting thereof there is an exchange of weather reports among the countries maintaining weather services. This co-operation exists nowhere so completely as between Canada and the United States. The weather services of these two countries maintain complete and most amicable relations—Science Service.

Three thousand disabled soldiers of the Great War still are being treated in British hospitals. Great Britain supplies about 4,000 artificial limbs to war pensioners in a single year.

About one-half of the whole mass of the diamond is cut away before the stone acquires its full virtue as a gem.

### Mansion For Sale Cheap

But Initial Cost Of Five Dollars Is Just The Start

Would you like to buy a London mansion right in the West End near to Hyde Park, with ten bedrooms, three bathrooms, and five reception rooms, in one of London's fashionable squares, for £17? You would? Well, the agents for No. 29, Hyde Park-square will be pleased if you will call and sign the contract.

And then—well, you don't wake up, but you find there is a snag about it—several snags in fact. The ground rent works out at about £280 a year, the rates (at present) at £154, and the lease is a full-repairing one, which means that it will cost about £100 to paint the front of the house alone! So, if you are not prepared to spend some £100 or £200 a year on your prospective home, you'll have to look elsewhere. Perhaps, after all, you'll take that thirty bob a week flat—constant hot water, and if the plaster off the ceiling when it falls, you're unlucky.

Still a notice outside No. 29, which is empty at present, says that 36 years' unexpired lease is for sale at the cost of £1. Until Christmas No. 29 was the town house of Frederick R. H. Millar, assistant private secretary to the Foreign Secretary, Lord Halifax, and now First Secretary at the British Embassy in Washington. —Overseas Daily Mail.

### Air Borne Traffic

Remarkable Increase In Passenger Airline Traffic

In spite of the cycle of recession, statistics show a remarkable increase in air line passenger traffic and mail revenue in the past few years, George G. Wakeman, general traffic manager of the Trans-Canada Airlines, said in an address to the Westmont Rotary Club. Last year, he pointed out, 1,500,000 passengers were carried in the United States, an increase of 200 per cent. in five years. World figures for 1938 were not available but the total he said, was in excess of 1937, when there were 8,078,109 air travellers.

A study of traffic figures for air line operations in Canada showed that air mail poundage increased from 625,040 pounds in 1934 to 1,807,221 in 1938, about 75 per cent. in four years. Last year's postage revenue last year was estimated at \$505,592.56. In the same period air freight and express in Canada increased from 14,441,179 pounds to 26,387,719, nearly 50 per cent.

### Aid From Overseas

517 Candidates From Overseas Join Royal Air Force Service

Air Secretary Sir Kingsley Wood told the House of Commons "the number of candidates from overseas Dominions and colonies who were accepted for appointment as commissioned pilots in the Royal Air Force in the past year is 517, which, I am sure, the House will agree is a very helpful contribution."

When a large area of Essex, England, was flooded by sea water 40 years ago, it killed off all the earthworms and they did not reappear until two years later.

### Fellowships Awarded

Announce Names Of Successful Applicants In East And West

Fellowship awards made by Royal Society of Canada under endowment of the Carnegie Corporation were announced at Ottawa by Dr. Arthur Beachley, clerk of the House of Commons and honorary secretary of the society.

The eight successful applicants are: Prof. Luc Lacourciere, 20, Rigaud, Que.; George Stephen Vickers, 26, St. Catharines, Ont.; Francis E. L. Priestley, 34, Toronto; George M. Volkoff, 23, University of British Columbia graduate now at Berkeley, Cal.; Miss Florence Shirley Patterson, 26, Newmarket, Ont.; Mackenzie L. Keith, 27, Edmonton; William Harold Fishman, 25, Winnipeg; Frederick Stanley Thatcher, 29, Montreal.

The fellowships, worth \$1,500 each, are open to graduates of a Canadian university and are tenable for one year. Successful applicants will carry out their research under supervision of the society.

Mr. Fishman, native of Winnipeg and graduate of University of Saskatchewan, is at present a fellow in the biochemistry department at University of Toronto and will go to University of Edinburgh to study "enzyme factors involved in the action of certain hormones" under Dr. G. F. Marrian of the medical chemistry department.

### The League Of Nations

Canada Should Lead In Reviving Only Basis Of Sanity

Instead of standing on the sidelines in the present international crisis Canada must take the lead in bringing the nations back to the League of Nations, the only basis of sanity, if civilization is to be saved, Dr. J. S. Thomson, president of the University of Saskatchewan, said when he arrived in Winnipeg to address the 34th annual convention of Manitoba Educational Association.

"Canadians must re-awaken from the slumber into which they have fallen in respect to foreign affairs," Dr. Thomson declared. "They must get away from the delusion that they can keep out of a world conflict and stand on the sidelines while Britain, France, Germany and Italy engage in a struggle for power."

"This business of standing on the sidelines is destroying us. If one-tenth of the thought and discussion that has been given to the E.N.A. Act in the past 10 years had been given to the constitution and operation of the League of Nations, the prairie farmer to-day might have a better price for his wheat and we might have a more stable economy in Canada and in the world."

Some natives of the Philippines fish in cornfields. A dozen climbing perch, which travel on dry land, often are obtained from a cornfield patch of mud.

Shipyards of the world launched nearly 3,000,000 tons of new merchant vessels last year.

Have you stopped whistling? If you have, you are getting old.

Perfectly normal weather is unusual in any locality.

**Lipton's ORANGE LABEL** 35c ½ lb.

**Lipton's YELLOW LABEL** 40c ½ lb.

## LIPTON'S Full-Flavoured TEA "FIT FOR A KING"

### Local Defence

The Responsibility That Is Attached To Each Dominion

The world is suffering from "air-funk", according to Vice-Admiral J. E. T. Harper, Navy League lecturer. This, he feared, might lead to people placing undue emphasis on the danger of air attack and so neglecting the main issue—the proper maintenance of general and local naval defence.

Responsibility for general defence cannot be divided up among the separate members of the Commonwealth of Nations, Admiral Harper declared. "But local defence, such as protection against mines, or against bombardment by a raider which has evaded the navy on the high seas, must obviously be the responsibility of each Dominion."

### Man Of Science

Dr. Charles R. Stockard Dies At Age Of 60

Death at 60 has overtaken Dr. Charles R. Stockard, internationally known biologist, who held out the hope that man through science may attain the "fountain of youth."

Dr. Stockard, president of the Board of the Rockefeller Institute and head of the Department of Anatomy at the Cornell Medical College, told the Old Age Congress in 1928: "I would not hesitate to say that a man might be kept as he is at the age of 25 for several hundreds of years."

Dr. Stockard had been ill with a heart ailment six months before his death.

Great Britain and the United States between them buy 25 per cent. of all the goods exported in the world.

The first American almanac was published by William Pierce, of Cambridge, Mass., in 1630.

Satisfaction

Guaranteed

Why didn't the Cereal young  
fry pay Chinook a visit at a more  
feasible hour? We seldom rise  
as early as 2:30 on a Monday  
morning, you know.

The young men of today, cer-  
tainly differ from what we fellows  
were in our country. The girl  
goes home for her holidays and  
what does the B. F. do? He  
immediately invites another  
young lady to a dance.

## Round About Town

SEEN BY US

Well the town is more like  
itself again. Maybe it seems  
incredible but We, older folks  
certainly missed you,—boys and  
girls.

One young lad either forgot to  
repair his car's brakes when he  
was fixing that vehicle lately or  
else he was just giving "Lizzie"  
a both to take off a year's accumu-  
lation of dust. We hear that the  
poor fellow had to sit on the  
fender while trying to start the  
car in order to remove it from  
the car.

"Star-gazers" aren't so com-  
mon nowadays. However, two  
of our young ladies thought they  
would make an observation from  
the roof of the hotel last week.  
From all appearances they seem-  
ed convinced that the "sport" of  
their forefathers is exceptionally  
thrilling.

Did you hear how one of our  
H. S. boys kindly assisted one  
of his fellow-students to carry  
home her pail of water? Will  
the Cereal girl friend be informed  
of such fickleness—we wonder?

The best way to make a post-  
age stick is to put the wrong  
address on the envelope.

## Presentation To Mrs. Aggett

A very timely presentation  
was made at the United  
Church manse in Youngstown  
Monday evening, April 17th.,  
when Mrs. H. A. Whaley, on  
behalf of the Women's Insti-  
tute and the Ladies' Aid pre-  
sented Mrs. Isobel Aggett  
with a beautiful travelling  
case as a token of the esteem  
in which she is held as a re-  
sult of many years association  
with the above two organiza-  
tions, which were represented  
by Mrs. Geo. Campbell and  
Mrs. Anna McNaughton.

The address which accom-  
panied the presentation is as  
follows:

Dear Mrs. Aggett—On  
behalf of the members of the  
Ladies' Aid and the W. I.  
we wish to express our heart-  
felt sympathy to you in your  
recent bereavement.

Will you please accept this  
small gift as a token of our  
affection for you and for our  
appreciation of the loyal and  
faithful services you have  
rendered in both these organ-  
izations.

We trust that this travelling  
case will be a constant re-  
minder of the love and esteem  
in which you are held in the  
hearts of your Youngstown  
friends.

Pictures, Concert

and Dance

Pictures, Concert and Dance  
under the auspices of Chinook  
School will be held in Assem-  
bly Hall Friday, April 21st.  
Proceeds for radio fund.

## "Some Day I'm Going to Take it Easy"

THAT'S what thousands of men are promising them-  
selves—a comfortable old age, freed from work and  
worry. And many are able to make their dreams come  
true, through their savings in Life Insurance.

Life Insurance does two important jobs. First, it pro-  
tects widows and dependent children—providing them  
with necessary funds if they are obliged to carry on  
single-handed. Secondly, Life Insurance builds up a  
cash reserve for future years—enabling men and  
women to "take it easy" in their old age.

And millions of Life Insurance Dollars are put to  
work in financing farms and homes—schools and good  
roads—and many other worthwhile enterprises.

## LOCAL NEWS

Mrs. W. H. Barros and son  
Leonard motored to Bindus  
Tuesday.

Mr. B. Youell, Alsask, arrived  
here Tuesday and will clerk  
in the Aitken General Store.

Miss Donald MacLean  
who spent the past month with  
her parents at Alsask, re-  
turned Wednesday.

Mr. and Mrs. Kalaputas who  
were in charge of the C. N. R.  
Dance north of town, for the  
winter months, left last week for  
Red Deer.

Mr. and Mrs. McFalls of  
Hanna, visited at the latter's  
parents, Mr. and Mrs. Ilos,  
Gilbertson.

Miss Patricia MacIntosh of  
Calgary, visited at the home of  
Miss P. DeMaere last week.

Mr. and Mrs. MacIntosh and  
Muriel were Chinook visitors on  
Saturday.

Mr. F. Morrell returned from  
Edmonton where he attended the  
Teacher's Convention, and Mrs.  
Morrell and children returned on  
Sunday from Oyen.

Mr. J. Charyk returned Sun-  
day from Lethbridge, where he  
spent the vacation with his  
parents.

Miss Byler spent the Easter  
holiday at her home in Oyen.

Mr. S. M. Brown who has been  
visiting relatives and friends in  
Manitoba and N. Dakota during  
the winter, returned home on  
Monday.

Mrs. Guston and son of  
Saskatoon, arrived here Tuesday  
and will spend the summer with  
her parents.

Mrs. Bell visited during the  
holidays at Hanna returning on  
Sunday.

I wish to thank all the high  
school pupils and Mr. Charyk for  
the wonderful time I had at their  
party. I hope that Mr. Charyk  
has a long stay at our school in  
Chinook.

Ernest Gilbertson  
Inniskill

Mr. and Mrs. C. B. Hittle were  
Chinook visitors Sunday.

Rea. Mr. Hall of Hemaruka,  
was a Chinook visitor Tuesday.
